

MICRO-TOUCH[®] DENTA-GLOVE[®] NRL

DENTA-GLOVE[®] Series

Latex, powder-free, examination glove with maximum comfort for a wide range of dental procedures

This non-sterile glove is an ideal choice for dental specialists who switch gloves frequently and experience hand fatigue from continuous use.

KEY FEATURES AND BENEFITS:

- Latex formulation and optimized film thickness offer a high level of elasticity, flexibility, and sensitivity
- Inner chlorinated surface to ensure fast and easy donning
- Tested Safe for Oral Examination, ensuring that the glove is safe for patient contact

Caution: This product contains natural rubber latex which may cause allergic reactions including anaphylactic responses.

Recommended For

- Enhanced grip in wet environments
- Standard, moderate risk examination procedures
- Oral examinations

MICRO-TOUCH[®] Everyday, Everywhere Protection

MICRO-TOUCH[®] premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
